Postman, SQL,

Microsoft Windows, Office

Android

## Professional summary

I worked as a person responsible for verifying the quality of products in industries such as energy, automotive and aviation. I used various types of measuring instruments for this, including Coordinate Measuring Machines.

I value team work. I easily adjust the organization and working time to the specifics and conditions of the project.

In order to further develop my competences, I changed my profession to IT, while remaining in the quality control department, because I feel at home in it, which is confirmed by my many years of experience.

## Work history

**PPW NABOR** 04.2014 – 02.2022

Senior quality control specialist (06.2021-02.2022)

Quality control specialist (04.2017-06.2021)

Mechanical Engineer (04.2014-03.2017)

*Control of products and instrumentation with the use of CMM, delivery control, supervision over control and measuring instruments.*

*Ability to read and interpret standards as well as read and analyze technical documentation. Development of documents and instructions based on customer requirements, issuing measurement reports, quality certificates, FAI reports.*

*Participation in projects related to the introduction and launch of new products.*

**Thoni Alutec Sp. z o.o.** 07.2012 – 03.2014

Quality controller in the R&D Centre

*Operation of measuring machines and devices, visual inspection, keeping quality documentation, making decisions about conforming or non-conforming products, making decisions regarding the suspension of the production process.*
